Professional Summary

1st-year Computer Science Engineering student bridging software development, AI research, and system architecture. Experienced in deploying local Large Language Models (LLMs) and building full-stack web prototypes. Focused on building scalable, hyper-local solutions for underserved markets.

Education

2025–2029 **B.Tech - Computer Science Engineering**, *IIMT University*, Meerut, UP, SGPA: 8.2 (Sem 1)

2024–2025 **Class 12th (PCM)**, *SRD Senior Secondary School*, Mau, UP, 84%
Board: CBSE

2022–2023 **Class 10th**, *SRD Senior Secondary School*, Mau, UP, 87%
Board: CBSE

Technical & Strategic Skills

Languages	Python, C, C++, JavaScript, HTML5, CSS3
AI & Arch.	Local LLMs (Gemma), GraphRAG, Agentic Workflows, Prompt Engineering
Tools	Git/GitHub, VS Code, PowerShell, Streamlit
Strategic	Project Management, Content Writing, Structured Debating, Problem Solving

Key Projects & Prototypes

2025–2026 **QueueKhatam**
Architected a hyperlocal "zero-app" WhatsApp healthcare scheduling ecosystem for Tier 2/3 cities using Python and WhatsApp API.

2025–2026 **GraphRAG Engine**
Engineered a local Knowledge Retrieval app utilizing Ollama, Streamlit, and Qwen2.5 to securely map data relationships.

Certifications

Mar 2026 **Intro to Generative AI, Large Language Models, Responsible AI**, *Google Cloud & Coursera*

Mar 2026 **Python Crash Course, Cybersecurity, Data Foundations**, *Google & Coursera*

Oct 2025 **Introduction to Artificial Intelligence (AI)**, *IBM & Coursera*

Leadership & Involvement

2025–Present **Active Member**, *IIMT E-Cell & Business Incubator Foundation*
Collaborating with peers to ideate and structure scalable startup models (e.g., QueueKhatam).

2025 **Participant**, *Internal University Hackathons*
Competed in two internal hackathons, demonstrating rapid prototyping and problem-solving under strict time constraints.

Ongoing **Independent Deep-Tech Researcher**
Exploring paradigms like Neuromorphic Computing, Floquet Engineering, and Muon Tomography. Synthesizing Physics (Quantum Mechanics) for practical software applications.

Hobbies & Interests

Tech & Science	Tracking emerging tech inventions and deep-tech research developments.
Philosophy	Studying frameworks to broaden analytical thinking and ethics.
Media	Exploring long-form narratives and web series for creative engagement.
